

Facial Recognition Attendance And Access Control DCN-X05

DCN-X05

DCN-X05 The DCNSecurity X05 is a compact yet powerful Android 5-inch multi-modal biometric terminal designed for accurate identity verification and efficient access control. Built for modern workplaces and high-security environments, the X05 integrates facial recognition, fingerprint recognition and NFC card reading in one device, delivering fast and reliable performance in any scenario.

Equipped with 4G and SMS function, the X05 enables real-time communication, remote updates, and flexible deployment without relying on wired networks. The device also supports free cloud-based management software, making it easy for enterprises to manage users, attendance records, and access logs across multiple locations.

To support partners and developers, DCNSecurity offers free SDK and API, enabling seamless integration with third-party platforms and fully customized OEM/ODM solutions.

Features

- ★ 5-inch high-resolution touchscreen, built-in battery
- ★ Face / Fingerprint / NFC Card / Iris(optional) multi-modal verification
- ★ 4G communication + SMS function
- ★ POE Function
- ★ DCNIMS free cloud management platform for remote control and data monitoring
- ★ Free SDK & API for easy integration and secondary development
- ★ Stable performance in diverse environments, suitable for offices, factories, schools, hospitals, and more

★ CE, FCC, RoHS

RoHS

SPECIFICATION

OS	Android 11
LCD	5inch 720*1280
Dimension	225mm(L)*115mm(W)*11.5mm(H)
Camera	5.0M (RGB Camera); 2.0M (Infrared Camera)
Battery	Support DC 4.3V 3000mAh
12V Input	Support
RFID	Support ISO/IECC1443 Type A&B, 13.56MHz
GPS	Support
G-Sensor	Gravity acceleration sensor
Speaker	Built-in stereo speaker 8Ω/1.5W
Mic	Built-in microphone
Touch Panel	Capacitive panel, multi-point touch, G+G-
Storage Temperature	5°C~60°C

HARDWARE

CPU	MT8768, Octa-core 2.3GHz2GB
RAM	2G(Optional 4Gor more)
ROM	16GB (Optional64Gor more)
OTA	Support

OTHER

Certificate	CE, FCC, RoHS
ODM	Logo
Protective silicone case	Optional

CARD SLOT

SIM Card	1* SIM card slot, 4G
SMS	Support

Iris camera

CMOS photosensitive chip	1/2.8sensor
Maximum resolution	1920(H)x1080(V)2.9um x
Sensor Pixel Dimensions	2.9um

Iris camera

Image transmission rate	1920*1080/30fps
Distortion	TVDistortion<1.0%
CRA	<23.58°
Lens temperature range	-20°/+80°
Lens structure	2P+2G
Focus distance	37cm
Depth of field	32~42CM
Video output compression format	MJPG/YUY
Working wavelength	810nm
Dynamic range	60dB

FINGERPRINT SENSOR

Sensor	FBI Certificated Fingerprint Sensor
Image Resolution	(FAP10)508DPI
Image Area	18.00mm*12.80mm
Image Size	256*360 pixels
Gray Scale	5-bit(256levels)
Standard	Support ANSI378/381, ISO19794-5/-4
Image Format	WSQ, RAW, jpg, etc
API Calling for 1-to-N Matching	Support

COMMUNICATION

Wi-Fi	2.4GHz / 5.0GHz
Bluetooth	Bluetooth 5.0
USB	USB-A; Micro USB
POE	Support
Wiegand	26/34/37/56/64/input&outputRS232/RS485
NO NC COM	Support
Button Doorbell	Support
Open button	Support
Door Magnet	Support
RJ45 LAN	Sup port
